Do LMs make similar inferences?

A reader sees:

The executive **who falsified revenue figures** was fired.

*Fired **because** of the falsified figures?*

(a) Learn a causal direction

Intersentential

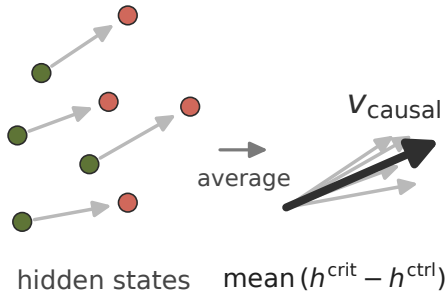
(mandated causal inference)

The class used a helpful textbook.

The class occupied a corner room.

The class learned the topic quickly.

critical **control**



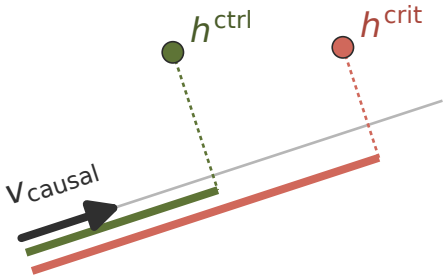
(b) Test on unseen pairs

Intrasentential

(optional causal inference)

The executive

who falsified revenue figures

who wore a blue silk tie


was fired.
